I am a full-stack web developer, with over 3 years of experience and a background in Architectural Engineering. This unique perspective allows me to approach technical challenges with a focus on both functionality and user experience. Proficient in React, TypeScript, RubyOnRails and passionate about bridging the gap between engineering and creativity.

WORK EXPERIENCE

Fullstack Web Developer

AutoUncle / June 2021 - June 2024

- Role: As a member of the Deal Team, I collaborated with cross-functional teams to develop dealer-facing tools like market trend dashboards, car price calculators, and valuation systems across Europe, and implementing interactive widgets for dealer websites.

Key values: Frontend performance, low latency, concurrency, state management.

- Technologies and tools: React, Next.js, Apollo, GraphQL, Typescript, Storybook, React Native, CSS modules, Styled Components, Tailwind, Testing library, Jest, Rspec, Git, Git flow, SCRUM.

Frontend Developer (Part-Time freelancer)

Lynir / December 2022 - June 2023

- Role: Frontend lead in charge of architecting and executing the web technical solution. The application operates in real-time with 3 APIs. Key values: NLP search, keyword search, and timeline filter.
- Technologies and tools: TypeScript, GraphQL, SCSS, MongoDB.
